SALINITY

## About SALTdeck

SALTdeck has been developed to assist livestock producers and their advisors identify the plant species that grow on salt affected land. SALTdeck cards focus on correct identification, and contain only minimal information about the species and their potential uses—such information can be obtained from local advisors, or from links attached to the CRC website:

[www.crcsalinity.com.au](http://www.crcsalinity.com.au)

## Acknowledgement

The development of SALTdeck has been a major operation. This general acknowledgement is included because it has not been possible to list the authors on each card. The development of SALTdeck was undertaken by Sainty & Associates, overseen by a Task Force consisting of John-Paul Collins (DAF WA), Jessica Johns (DAF WA), Warren Mason (SGSL), Malcolm McCaskill (DPI Vic), Bruce Munday (CRC Salinity), Hayley Norman (CSIRO), Sally Phelan (SPA), Trevor Pollard (DPI Victoria), and Deb Slinger (DPI NSW). Significant, additional technical input was provided by Surrey Jacobs, Laurie Adam, John Hosking, Paul Wilson, Kelly Shepherd and through the CRC Salinity, specifically from Ed Barrett-Lennard, Mike Bennell, Andy Craig, Nick Edwards, Pedro Evans, the late Clive Malcolm, Linley Stone and Mary-Jane Rogers.

Front card painting by Allyson Parsons

SALTdeck was fashioned on the very successful WEEDeck concept developed by Sainty & Associates and the National Weeds Strategy. Funding to develop SALTdeck was provided by SGSL and the CRC Salinity, with in-kind support from the partners whose logos appear below.
